DRIVEAWAY AWNINGS

**OUTDOOR
REVOLUTION**
WWW.OUTDOOR-REVOLUTION.COM

Outdoor Revolution have pioneered the Oxygen Air Frame System; the quickest, easiest and most reliable air frame and inflation system on the market today. A system unique to Outdoor Revolution and envied by other manufacturers of air tents.

Featured in the premium award winning Movelite range, the unique pressure relief valve (IF - Intelligent Frame) is designed to regulate and control the air pressure inside the air tube and acts as a safety mechanism to prevent burst air tubes through over inflation or excessive air expansion on hot days.

Whilst factory tested up to 19PSI, we recommend the Oxygen Air Frame is inflated to a working pressure of approximately 6PSI, which is around the max pressure to which our relief valve is factory set at before it starts to release excess air pressure. Depending on ambient temperature changes, the PSI can increase dramatically on warm sunny days as the air inside the tube will expand.

If the PSI pressure increases to over the recommended 6 PSI (through either over inflation or changes in ambient temperature) the Intelligent Frame Relief Valve will expel the surplus air and maintain the air pressure within the air frame at a safe level. This unique system ensures that the tubes cannot be stressed and damaged by increasing pressures.

Because we are so confident in our air frame family tents, we offer a *LIFETIME GUARANTEE on all air frame models which incorporate our unique IF - DSV inflation system.*Terms and conditions apply

New for 2023 & incorporated into the all new Esprit Pro X awning range, the Outdoor Revolution 'Air Lock off Valve System' offers unrivalled functionality & peace of mind in your premium driveaway awning oxygen air frame.

This new ground breaking system for Outdoor Revolution offers the ability to connect each individual air tube in the air frame via connective air hoses in which each hose incorporates an air lock off valve, enabling air to pass freely between each individual tube of the entire frame to create a single inflation air frame for ease & speed of inflation. Once the frame is inflated, the valves can be locked off to isolate each individual air tube & preventing the complete awning deflating should any air tube be damaged resulting in air loss. Individual tubes can then be quickly and easily disconnected & individually replaced in such emergencies, thus enabling the awning to still function & operate as normal whilst a new tube is fitted. This system offers the end user complete peace of mind in the event of an air tube failure as in most cases the awning can still be used as normal. This system comes complete with an extended 3 years manufacturers warranty, covering tube replacement in the event of a tube failure.

Deflating the Oxygen Air Frame is simple with our easy to operate DSV valve (Dynamic Speed Valve). With just a simple push of a button, the valve will expel all the air from the frame, which will deflate and come down in seconds; no messing around with unscrewing difficult to get hold of leaky, slippery and unreliable valve caps.

AIR FRAME

Technology & Innovation...

Outdoor Revolution driveaway awnings represent the most advanced developments in driveaway awning technology and the very finest standards in British design and innovation. We are proud to be the industry innovators of the modern driveaway awning, to which our aim is to always listen to our customers needs when designing new products. Our expanded Movelite (T3E & T4E Euro) and more consumer focused Cayman driveaway awning ranges provide a broad and diverse driveaway awning collection, designed with something to suit every campervan and motorhome adventurer.

Our choice of technically advanced driveaway awning fabrics are specifically designed and selected for their specific qualities in durability, UV and fade resistance, weather proofing and with a high strength to weight ratio. Every driveaway awning design is fully weather tested in our purpose built rain house, simulating heavy rainfall comparable to a tropical storm. All our air tubes are individually pressure tested for a minimum of 72 hours before being installed into our driveaway awnings. Our inflation (DSV) and pressure relief (IF) valves are individually tested to precise high pressure tolerances in laboratory conditions before being installed into air tubes. Backed up with our air tube Lifetime Guarantee (IF DSV models), together with new innovations such as the Esprit Pro X connective air lock valve system, make your choice to buy an Outdoor Revolution driveaway awning a true leisure time investment.

Quality & Choice In Fabrics...

Esprit Pro X Range - Pro 600HD - (6000mm Hydrostatic Head)

Updated 600HD high-density Oxford weave fabric provides the look and feel of a traditional awning, whilst remaining lightweight. This fabric balances the usability of man made fibres and the tactility of natural material to create a technical, high performing fabric. This doesn't only create a sense of luxury, it provides vital weight and space saving benefits.

Movelite Range - 240HDE HEX - (4000mm Hydrostatic Head)

Our 240HDE fabric has been designed to deliver exceptionally lightweight yet robust, durable products, allowing smaller folded pack sizes where weight and space limitations are of consideration. This high density weave fabric is printed with our signature Hex design, visually encapsulating the technical qualities of this exceptionally strong but lightweight technical tent fabric.

Movelite & Cayman - Technical Polycotton

Introducing our latest breathable polycotton driveaway awning fabric (Movelite T4E PC & Cayman Combo PC). A high performance mix of cotton and polyester, creating a highly breathable yet highly water resistant technical fabric with high fade resistance, keeping the awning cooler in warmer conditions, whilst also dramatically reducing condensation and humidity inside the awning, creating a more pleasant living environment. Perfect for European touring in warmer climates.

Cayman Range - 120HDE HEX - (3000mm Hydrostatic Head)

This lightweight fabric has been specifically designed to deliver lightweight, compact products whilst maintaining strength and durability. Woven using the latest textile manufacturing techniques, this fabric is designed for longevity, affordability and performance. The embossed Hex print gives a technical aesthetic and feel to the awning.

CAYMAN DRIVEAWAY - a collection of 8 award winning models

**'LIGHTWEIGHT FEATURE-
PACKED DRIVEAWAYS
FOR EVERYONE'**

OXYGEN
AIR FRAME

Discover the award winning Cayman driveaway family. An eclectic collection of 8 models (plus annexe, utility toilet tent & Zip on Porch Door accessory options) with updated & upgraded versions of existing favourite best selling models.

Constructed from our trusted lightweight 120HDE high density technical fabric with options in both air frame & traditional fibreglass frames, the Cayman models carry an air of understated confidence with sleek design lines & classic tri colour livery to coordinate & tastefully complement any campervan or motorhome.

The Cayman Air & Cayman fibreglass glass models can now be fitted with a side attaching 2 berth annexe for added functionality. The twin ended Cayman Combo (now also available in breathable luxury polycotton) can be fitted with an optional ambidextrous *zip on porch door & *2 berth cabin inner tent option (also compatible with Curl Air & Cacos SL models), making it one of the most versatile driveaways on the market today for both left & right hand vans. Perfect for European & UK touring.

Never before has a driveaway awning range covered every possible individual requirement.

CAYMAN F/G

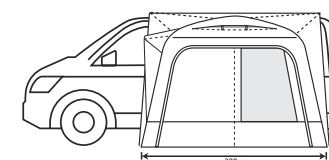

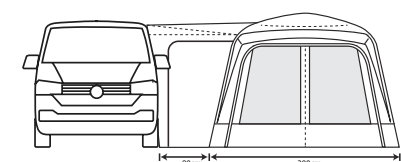

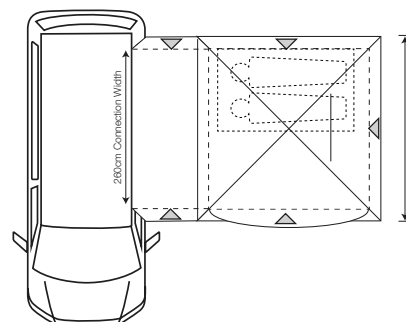

'Fast pitch f/g driveaway with the option to add a sleeping annexe'

The excellent value lightweight **Cayman F/G** pole and sleeve driveaway awning remains the most popular upper entry-level family / couples driveaway on the market. Constructed from 2 fibreglass poles it is quick and easy to pitch and structurally very stable. The unique design means this is one of the most versatile driveaways on the market, offering access from all sides of the awning through the large roll back doors. Incorporating the option to zip on an Annexe, adding functionality and extra space. Available in 3 cowl heights to suit the vast majority of campervans & motorhomes. Including a 'fold-flat' sewn-in groundsheet and lots of ventilation with plenty of mesh fly screen panels, this is the value awning of choice for adventurers who crave more usable space alongside their van.

Key Features

- 120HDE Hex high density all weather lightweight fabric
- Hydrostatic head 3000mm
- Lightweight yet robust fibreglass pole frame
- Zip back front & side door with Phoenix mesh ventilation panel
- Zip out rear door to take an optional Cayman annexe
- Vehicle front facing eyebrow canopy with fibreglass pole
- Inner cowl tension straps and cowl bungee for an adjustable vehicle fit
- 4mm & 6mm twin cowl connection rail piping
- Twin rear zip back cowl access doors
- Roof ventilation system with Velcro down storm cover
- Crystal clear PVC windows with toggle in privacy blinds
- Fully sewn in PE groundsheet with fold down access door up stands
- Hanging points for optional 2 berth sleeping inner tent
- Colour coded guylines with quick adjusters & adjustable webbing pegging system
- Includes peg set and carry bag

CAYMAN AIR

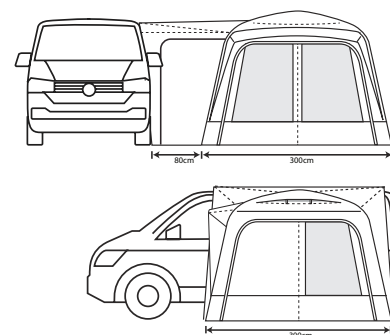

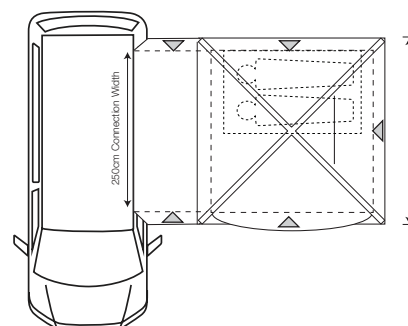

'Fast pitch air driveaway with the option to add a sleeping annexe'

Experience minimal hassle and a super-quick pitch time with Outdoor Revolution's excellent value & lightweight Cayman Air. This single point inflation family drive away awning is now available in three cowl height options to offer a great fit to the vast majority of campervan or motorhomes. The unique design means it is one of the most versatile driveaways on the market, offering access from all sides of the awning through the large roll back doors. A right hand fully zip off side door with mesh panel enables a further zip on annexe to be attached to create increased sleeping options (sleeping up to 4 people) or added storage space for larger families and adventurers.

Key Features

- 120HDE Hex high density all weather lightweight fabric
- Hydrostatic head 3000mm
- Single inflation dura tech welded Oxygen Air Frame system
- Zip back front & side door with Phoenix mesh ventilation panel
- Zip out rear door to take an optional Cayman sleeping annexe
- Vehicle front facing eyebrow canopy with fibreglass pole

CAYMAN ANNEXE

'Sleeping annexe compatible with Cayman f/g & Cayman Air models'

The **Cayman Annexe** is a must-have for owners of the 2021 onwards Cayman Air & Cayman F/G. It zips simply onto the rear of both models providing a tall sleeping extension complete with a darkened 'Twilight' micro-polyester 2-berth sleeping inner. Pitched simply using one robust yet lightweight fibreglass pole, this annexe is designed to sleep up to 2 adults, a double air bed, or 3 children. There is an internal sewn-in groundsheet, which means the inner tent can be removed to allow the annexe to be used as additional storage or living space should you wish. A must have versatile and highly functional addition to your Cayman driveway awning.

Key Features

- 120HDE Hex high density all weather lightweight fabric
- Hydrostatic head 3000mm
- Lightweight yet robust fibreglass poled frame
- Sewn in groundsheet
- Rear ventilation panel with rain cover
- Includes darkened 2 berth sleeping inner tent with rear air vent
- Guylines with quick adjusters
- Adjustable webbing pegging system
- Includes peg set and carry bag

CAYMAN COMBO PC AIR

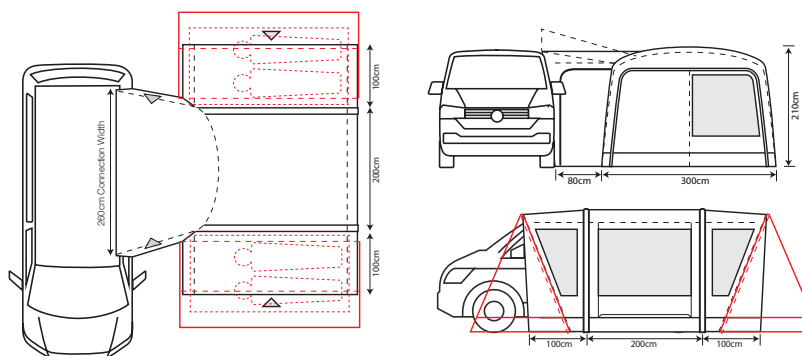

'Twin ended dual UK / continental PC model offering unrivalled flexibility'

The best-selling Cayman Combo Air in breathable polycotton fabric is perfect for hotter climates. Offering mirrored access from both front and rear, creating complete flexibility to suit individual needs and suits both UK plus left hand drive vans. Available in two cowl height options to offer a great fit to the vast majority of camping vehicles with a rail height of up to 255cm. An optional Porch Door can be added to the front and/or rear to create a fully enclosed usable space, extending the main living area. A 'Cabin Inner' bedroom can be purchased to be used inside one or both porches to effectively create a vis-à-vis style configuration with a maximum sleeping capacity of 6! A wealth of features include a 'fold-flat' sewn-in groundsheet and mesh fly screen panels to the entrance doors.

Key Features

- Luxury breathable polycotton
- Oxygen Air Frame system with 2 tubes
- Twin ended design with zip back doors with zip back mesh to both ends
- Integral extended twin ended canopies with fibreglass poles
- Facility to take an optional accessory cabin sleeping inner tent when used in conjunction with the optional Porch Door accessory (2022 model onwards)
- Inner cowl tension straps and cowl bungee for an adjustable vehicle fit
- 4mm & 6mm twin cowl connection rail piping
- Twin rear zip back cowl access doors
- Main living area ventilation system with Velcro down storm cover
- Crystal clear PVC windows with toggle in privacy blinds
- Fully sewn in PE groundsheet with fold down access door up stands
- Colour coded guylines with quick adjusters
- Adjustable webbing pegging system
- Includes manual air pump, peg set and carry bag

CABIN INNER TENT

'Large 2 berth inner tent for use with the Cayman Zip on Porch Door Extension'

The **Cayman Cabin Inner Tent** is designed specifically for the 2022 onwards Cayman Porch Door Extension to convert the enclosed space into a large 2-person sleeping area. Once the optional Zip on Porch Door is fitted with the included groundsheet, the Cabin inner tent simply toggles into the enclosed porch space creating a separate 2 berth bedroom area. Zip back doors on both sides of inner tent means it can be left in situ during the day to allow access to both internal and external doors. Also the ambidextrous design means that it can be used on both ends of the Cayman Combo models, creating a Vis-a-Vis style sleeping arrangement. Darkened polyester fabric is used to block out more light for a better nights sleep.

Compatible with the following models:

Cayman Combo Air (polyester), Cayman Combo Air PC (polycotton), Cayman Curl Air, Cayman Curl XLE f/g (2022), Cayman Cacos Air SL (polyester), Cayman Cacos Air SL PC (polycotton)

Key Features

- Darkened polyester fabric to block out daylight
- Sewn in waterproof PE groundsheet
- Twin sided doors allows easy entry & enable an ambidextrous fit
- Can fit a double size air mattress or 2 single air mattresses

CABIN INNER TENT

CAYMAN ZIP ON PORCH DOOR

‘Ambidextrous porch door available in polyester & polycotton options’

The **Cayman Zip On Porch Door** in polyester & polycotton options is a versatile addition to a variety of 2022 onwards Cayman Drive-Away Awnings. Connected using a combination of zips & toggles, it fits snugly around the sleeve of eyebrow canopy poles. There is a large zip back door which allows for full or half opening from both sides or top to bottom, and creates a practical sheltered and private space to suit personal requirements. Supplied with a toggle-in groundsheet and a pair of curtains to close the windows to the outside world, this also allows for the use of a Cayman Porch Extension Cabin Inner Tent which converts the now enclosed porch into a self-contained bedroom.

Key Features

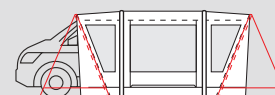

- 120HDE Hex high density all weather lightweight fabric & Polycotton options
- Hydrostatic head 3000mm (polyester version)
- Zip back front door with PVC windows & curtains
- Cabin inner tent compatible
- Secure zip & toggle connection system
- Colour coded guylines with quick adjusters
- Adjustable webbing pegging system
- Includes peg set, toggle in PE groundsheet, porch curtains and carry bag

Compatible with the following models:

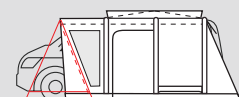

Cayman Combo Air (polyester), Cayman Combo PC (polycotton),
Cayman Curl Air (polyester), Cayman Cacos Air SL (polyester)
Cayman Cacos Air SL PC (polycotton)

CAYMAN CURL AIR

'Compact driveaway with zip on porch door compatibility feature'

The **Cayman Curl Air** is a lightweight Inflatable driveaway awning designed in the popular side-by-side style, meaning the front of the awning faces the same direction as the front of your vehicle. It's small pack-size and simplicity to pitch using two air-tubes and a single fibreglass pole makes it a fantastic choice for touring vehicles. Available in 2 ergonomic cowl sizes to fit rail heights of up to 255cm, the Cayman Curl 2022 model onwards has the option to attach a Zip-On Porch Door which will fully enclose the front porch. This porch door creates a huge amount of additional living space, and also allows for the addition of a 'Cabin Inner' bedroom which, when used alongside our standard 2-berth inner, means there is ample sleeping capacity for up to 4 people.

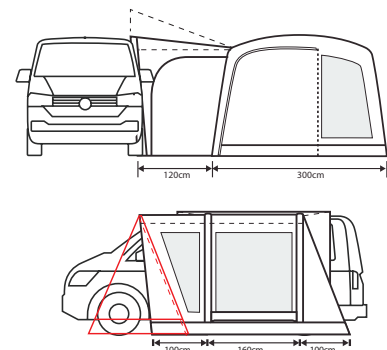

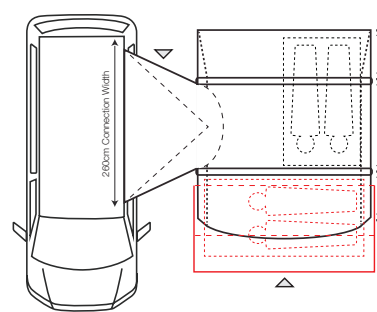

Key Features

- 120HDE Hex high density all weather lightweight fabric
- Hydrostatic head 3000mm
- Oxygen Air Frame system with 2 tubes
- Extended for 2022 - Integral front canopy with fibreglass poles
- Facility to take an optional accessory cabin sleeping inner tent when used in conjunction with the optional Porch Door accessory (2022 model)
- Zip back 2/3rds front door with side window with Integral front canopy
- Inner cowl tension straps and cowl bungee for an adjustable vehicle fit
- 4mm & 6mm twin cowl connection rail piping
- Rear facing zip back cowl access door
- Crystal clear PVC windows with toggle in privacy blinds
- Fully sewn in PE groundsheet
- Hanging points for optional 2 berth sleeping inner tent in living area
- Colour coded guylines with quick adjusters & adjustable webbing pegging system
- Includes manual air pump, peg set and carry bag

MOVELITE T2R

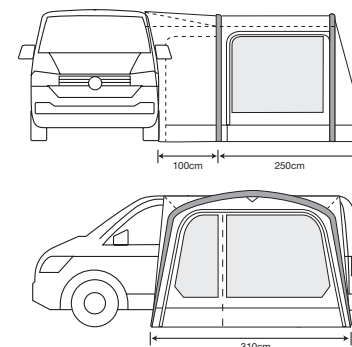

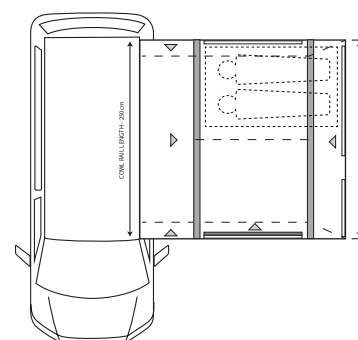

'Feature packed compact premium vehicle driveway awning'

The **Movelite T2R** is the best selling popular driveway style offering excellent internal space courtesy of the sharp angle of the front panel. As you would expect from our premium drive-away collection, high-end features are in abundance, including full mesh fly screens on the front and side doors with zip-up curtains. Inflated individually, both air tubes use our signature DSV inflation valve and IF pressure relief valve meaning they are covered by a *lifetime air tube Guarantee, so you can be sure that the air frame will never let you down.

The 2/3rds zip back front door, along with the aesthetically pleasing new colourway means this drive-away awning will be the perfect partner to any campervan or motorhome.

MOVELITE ZIP ON PORCH DOOR

'Porch door enclosed front porch extension for Movelite T3E, T4E & T4E PC'

The **Movelite Zip On Porch Door** is a fantastic addition to the Movelite T3E / T4E (also available in polycotton for the Movelite T4E PC). Connected using a robust zip, it fits snugly around the front tube of the integral awning porch creating a weatherproof seal using a tight-fitting gusset. There is a large zip back door which allows for full or 2/3rds opening complete with large windows with zip-up curtains, behind this is a full mesh panel which can be left in to offer maximum airflow through the awning while keeping insects out. Complete with PE groundsheet and additional toggle in curtains for complete privacy this porch door creates a practical sheltered and private space and combined with the full roll-back internal door of the awning can be used to significantly extend the internal living space to suit personal requirements.

Key Features

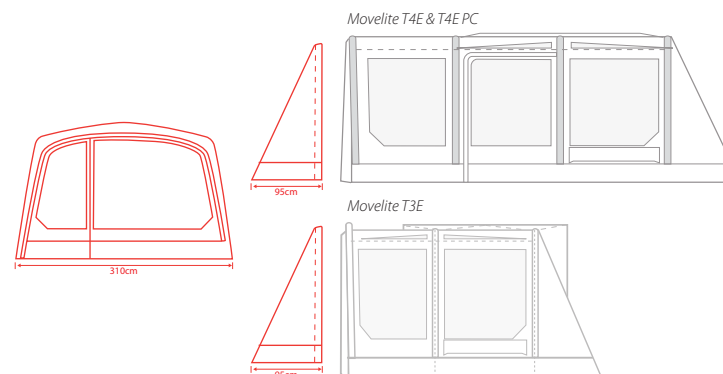

- Available in 240HDE Hex (4000mm HH) high density all weather lightweight fabric & also a polycotton option for the Movelite T4E PC
- Zip attachment to attach the Movelite front canopy
- Zip back front door with Phoenix mesh ventilation full zip across panel
- Tinted PVC windows with zip up fracture design curtains
- Reflective guylines with quick adjusters
- Adjustable webbing pegging system
- Includes groundsheet, curtains, peg set and carry bag

MOVELITE ANNEXE

'Functional sleeping annexe available in polyester & polycotton options'

The **Movelite Annexe** is a must-have for owners of a Movelite T3E & T4E driveaway awning with a further polycotton option for the Movelite T4E PC. Simply zip out the rear panel on your awning and zip into the rear section of the awning. Complete with a darkened 'twilight' micro-polyester sleeping inner tent the annexe provides additional sleeping or functional storage space. Pitched simply using a single steel pole for the polyester version and air tube for the polycotton option, this annexe is designed to sleep up to 2 adults, a double air bed, or 3 children. There is an internal sewn-in groundsheet which means the inner tent can be removed to allow the annexe to be used for additional storage or living space should you wish.

MOVELITE FRONT CANOPY

'Sun canopy front shelter for the MoveLite T3E, T4E & T4E PC'

The coordinating **MoveLite Front Canopy** zips onto the front of the MoveLite T2R, MoveLite T3E and MoveLite T4E / T4E PC drive away awnings to deliver a useful porch extension. Constructed using a robust steel pole, this accessory is the perfect addition to your awning, providing essential shade from the sun and shelter from the elements in adverse weather conditions, allowing you to kick back and enjoy some al fresco relaxation. This Canopy can be also be connected & used in conjunction to the MoveLite Porch Door (T3E & T4E / T4E PC), and can also be used in conjunction with the MoveLite Canopy Retro Connector (p.42) to fit directly into the 6mm awning channel on your vehicle. Available in polyester & polycotton options.

Key Features

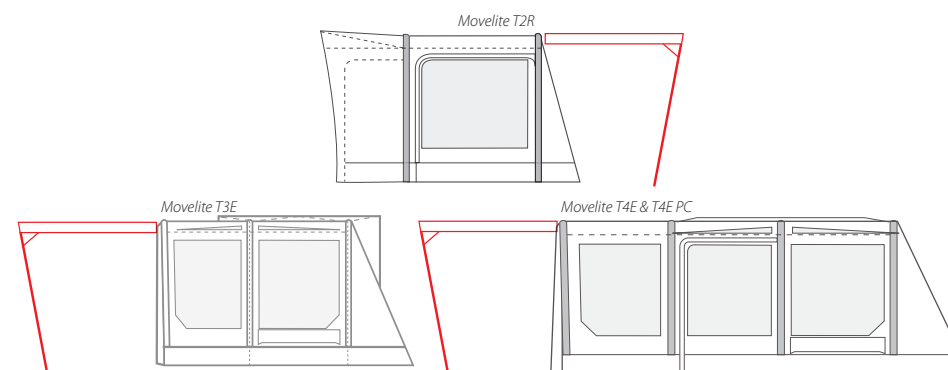

- Available in 240HDE Hex (4000mm HH) high density all weather lightweight fabric & also a polycotton option for the MoveLite T4E PC

ESPRIT PRO X MOTORHOME - premium motorhome driveway

'PREMIUM MOTORHOME DRIVEAWAY FOR THE DISCERNING MOTORHOME ADVENTURER'

Style & luxury are just two words for describing the all new Outdoor Revolution Esprit Pro X 350M premium motorhome driveway awning.

As part of the all new Esprit Pro X awning range this driveway motorhome version is complemented with an optional side extension & side annexe; this stunning new premium motorhome driveway awning is set to take the motorhome driveway touring market by storm.

Based on the newly developed single inflation connective system & using the most up date cutting edge technology which enables sections of the air frame to be isolated with 'Air lock' connection valves, this ground breaking system offers ease of inflation & deflation with total peace of mind.

Constructed in the luxury 600HD premium awning fabric for durability & complete weather protection, the all new Esprit Pro X 350M with premium features ticks all the boxes for the discerning motorhome adventurer.

For the discerning motorhome owner who demands nothing but the best.

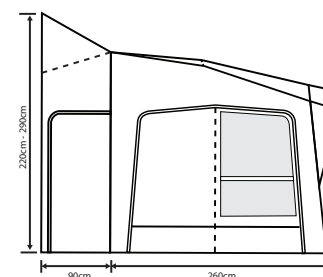

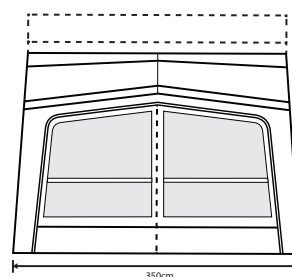

ESPRIT PRO X 350M

'Premium driveaway motorhome awning with lock off air system'

The all new **Esprit Pro X 350M** driveaway motorhome awning, constructed from our acclaimed luxury 600HD high density all weather premium awning fabric in stunning graphite and platinum. Built on our latest state of the art interconnected tube system, incorporating a series of lock off air valves and connection links which join the whole air frame together whilst also enabling individual sections to be isolated, providing total peace of mind. Featuring an adjustable height driveaway rear cowl section, full zip back front door with left hand side mesh panel for ventilation. An optional left hand side extension can be added, creating another separate room for dining etc. A further optional multi handed annexe can be added, providing further living/storage space and comes complete with its own 2 berth sleeping inner tent.

Key Features

- Pro 600HD high density all weather premium fabric
- Hydrostatic head 6000mm
- 3 YEAR WARRANTY on the Air Frame System (T's & C's apply)
- Oxygen Air Frame with Dynamic Speed & Intelligent Frame relief valve system
- Single point air lock off connective tube system

OF 2023 OUTDOOR REVOLUTION
ACCESSORIES & PRODUCTS**

To complement your driveaway camping experience, here at Outdoor Revolution we have developed a range of innovative vehicle canopies, shelters & driveaway accessories.

New for 2023 the Roll Out Vehicle Canopy is a fantastic addition to the Outdoor Revolution range of shelters. Offering an easy vehicle roof bar attachment solution that can be quickly and easily attached and detached from your vehicle.

When it comes to attaching your driveaway awning to your vehicle, Outdoor Revolution offer various attachment solutions to best suit your vehicle, whether that be a vehicle awning rail or Fiamma style wind out, our driveaway fixing kits offer the perfect solution to quickly connect and disconnect your driveaway awning. We even have solutions for vehicles with no fitted awning rails such as the Magnetic Driveaway Kit and our new range of Driveaway Suction Cups, designed for use with storm straps for a secure fixing.

Other innovative accessories include the Campervan & Motorhome Draught Excluder, now available in 3 sizes to suit a wide range of vehicles; adjustable roof stretcher poles, available in 2 lengths and designed to tension your awning roof to aid water run off and reducing pooling.

Accessories designed to complement your driveaway adventure experience.

ROLL OUT VEHICLE CANOPY

'Suitable for campervans, SUV's & off road type vehicles'

New for 2023, the Outdoor Revolution **Roll Out Vehicle Canopy** is a retro fitting retractable awning that attaches by either clamping the roll out mechanism to your vehicle fitted roof bars or can be fitted direct to the vehicle as a more permanent fixing with the included mounting brackets. The fold out telescopic legs enable the awning to be fitted to most heights of vehicles with a max height of 200cm. The canopy fabric provides a sun protection factor of UPF50+ with a reflective silver coating, whilst the PU coating gives a hydrostatic head of 2000mm for sheltered protection in wet weather conditions. Suitable for campervans, SUV's & off road type vehicles offering a practical & convenient sun shelter & weather protection for any leisure vehicle adventurer.

Key Features

- 210D poly Oxford PU coated fabric
- 2000mm hydrostatic head
- Silver reflective coating with UPF50+
- Mounts directly to roof bars & racks
- Sets up & packs away in minutes
- Retractable, quick to erect strong aluminium legs
- Provides shade on hot days & cover from wet weather
- Suitable for outdoor camping, picnics & more
- Complete with fitting tools, ropes & pegs

ROLL OUT CANOPY

Height Range up to 200cm

Total Weight 11.2kg
Pack Size 87x55x51

CAYMAN SUN CANOPY

'Designed specifically for campervans with a 185-220cm rail height'

The **Cayman Sun Canopy** is a simple yet effective sunshade designed to slide quickly and easily into the mounted awning rail or channel on your vehicle. Built to connect to vehicles with an awning rail height of between 185-220cm, the Canopy is pitched easily using 3 robust steel leg poles providing a quick sun shade for lunchtime stops, or short trips. There are optional side & front panels supplied with support poles (side panels only) and Velcro firmly to the edges of the canopy creating further shade and wind shelter, as well as complete privacy using the toggle-in curtains. With plenty of room for a table & chairs and perfect as a changing room or for storing gear, the Cayman Sun Canopy offers superb value for money and is a must-have for campervan adventurers.

Key Features

- 120HDE high density all weather lightweight fabric
- Hydrostatic head 3000mm
- Sturdy steel pole construction
- Twin piping 6mm & 4mm attachment
- Optional accessory side panels
- Optional accessory sidefront panel
- Clear PVC windows with toggle up curtains
- Separate peg down PE groundsheet
- Colour coded guylines with quick adjusters
- Adjustable webbing pegging system with bungee intermediates
- Includes peg set and carry bag

MAG CONNECT AWNING KIT for driveaway awnings

The Outdoor Revolution **Mag-Connect Awning kit** is a simple yet brilliant method to attach your driveaway awning directly to your campervan without the need of an awning rail. Made from easily wipeable and tough PVC, the connector contains 4 strip magnets & 5 powerful neodymium magnets to achieve a secure fixing to your campervan & simply attaches to your driveaway awning cowl with figure of 8 strips (included). Coupled with loops to attach storm straps in adverse windy weather conditions for extra security.

Key Features

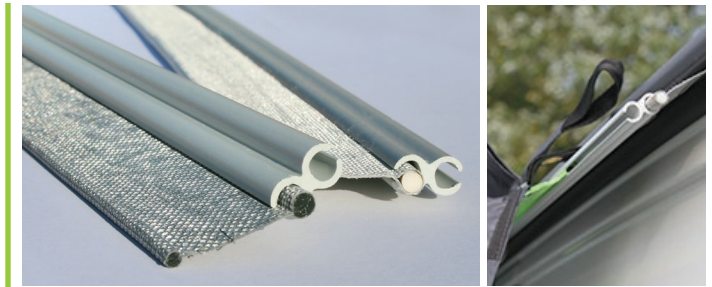

- 4 x Magnetic Strips and 5 x neodymium magnets for powerful grip
- 4 x Figure '8' Strips
- 3 x Storm Strap Loops for Securing Strip
- Suitable for use on Low to Mid vehicles with a height of 180cm - 240cm
- Suitable only for vehicle with a steel roof
- Fabric: Durable heavy duty PVC

Fabric: Heavy Duty PVC
Weight: 1kg
Size: 270cm x 28cm

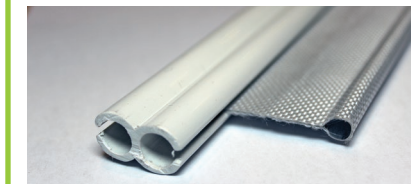

DRIVEAWAY FIXING KITS for driveaway awnings

Outdoor Revolution **Driveaway Fixing Kits** are available in various size options to suit particular vehicle rail lengths and awning rail channel sizes. Designed to enable the drive away awning cowl to be quickly detached from the vehicle awning rail by simply pulling out the figure '8' plastic extrusion. On return the awning cowl can be securely attached by lining up the vehicle and re attaching the figure '8' plastic extrusion.

RETRO CONNECTOR Connect your Movelite Canopy

Convert your Outdoor Revolution Movelite Canopy to fit directly to your campervan by zipping on the **Retro Connector** panel and fitting it directly to your campervan awning rail or Fiamma with the fitted twin piping (4mm & 6mm). A quick and convenient solution to make greater use of your Movelite Canopy when not using your Movelite driveway awning. Great for adventure days out and short breaks.

RETRO CONNECTOR

Weight: 0.55kg
Size: 33cm x 310cm
Pack Size: 46 x 7 x 7cm

DRIVEAWAY AWNING SUCTION CUPS - SMALL x 4

Designed for campervans without an awning rail attachment as an effective option for securely attaching the connection cowl on your small to medium sized driveaway awning to your campervan. Supplied in 4's, each suction cup is placed and securely suction clamped on to the vehicle roof, side bodywork or window and secured to your awning cowl with adjustable storm straps (separate purchase). These can be quickly & easily removed when driving away from your awning. Each suction cup has a secure weight loading of up to 10kg & has a soft suction cup to prevent damage to paintwork.

Key Features

- 4 x Small suction cups per pack
- Soft PVC suction cup
- 10kg weight loading per clamp
- Strong suction clamp/release lever
- Quickly & easily removed
- Strong webbing & clip to connect storm straps

Weight: 62g per sucker
Weight Loading: up to 10kg
Size: 7cm x 7cm x 3cm

DRIVEAWAY AWNING SUCTION CUPS - LARGE x 2

Designed for campervans without an awning rail attachment as an effective option for securely attaching the connection cowl on your large driveaway awning to your campervan. Supplied in 2's, each suction cup is placed and securely suction clamped on to the vehicle roof, side bodywork or window and secured to your awning cowl with adjustable storm straps (separate purchase). These can be quickly & easily removed when driving away from your awning. Each suction cup has a secure weight loading of up to 30kg & has a soft suction cup to prevent damage to paintwork.

Key Features

- 2 x Large suction cups per pack
- Soft PVC suction cup
- 30kg weight loading per clamp
- Strong suction clamp/release lever
- Quickly & easily removed
- Strong webbing & clip to connect storm straps

Weight: 193g per sucker
Weight Loading: up to 30kg
Size: 13cm x 13cm x 4cm

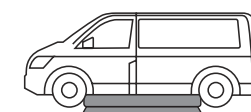

CAMPERVAN / MOTORHOME DRAUGHT EXCLUDER

The Outdoor Revolution **Campervan/Motorhome Draught Excluder** is a tough heavy duty PVC inflatable draught excluder designed to inflate under your campervan or motorhome to block cold air from passing under the vehicle & entering your driveaway awning through the utility connection cowl. The eyeleted flap can be pegged down to ensure the excluder stays in position. Available in 3 sizes to cover long and short wheelbase campervans plus an XL version for larger motorhomes. Supplied in a polyester draw string bag.

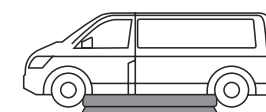

CAMPERVAN (SWB) DRAUGHT EXCLUDER

2 BERTH CLIP IN INNER TENT for driveaways, awnings & tents

Outdoor Revolution's **Two Berth Inner Tent** is the perfect optional extra bedroom for caravan awnings, driveaways & family tents, increasing the sleeping capacity by two. We have given this bedroom a universal fit across our latest collections, making it compatible with an extensive selection of models. The inner tent can be effortlessly clipped in/out of the corresponding coloured clips, which are usually situated in the rear section of your product to keep conditions comfortably dim, creating a more relaxing sleeping atmosphere.

2 BERTH CLIP IN INNER TENT

Material: Polyester
Size: 205 x 130cm (floor area)
Pack Size: 60 x 40 x 33cm
Weight: 1.6kg

4 BERTH CLIP IN INNER TENT for driveaway awnings

The Outdoor Revolution **Four Berth Clip In Inner Tent** is a convenient way to create additional sleeping space that can be quickly put up and taken down as required. Compatible with the new Movelite T3E, T4E & T4E PC & previous Movelite T4 driveaway awning models, this updated version incorporates additional left hand & rear right hand access doors as well as the 2 twin front compartment doors, plus a rear door to allow access through the back of the awning and the optional rear annexe. Darkened polyester fabric is used to block out more light for a better nights sleep.

4 BERTH CLIP IN INNER TENT

Material: Polyester
Size: 285 x 210cm (floor area)
Pack Size: 64 x 44 x 37cm
Weight: 2.9kg

CABIN INNER TENT for Cayman porch extension

The Cabin Inner Tent is designed specifically for the 2022 onwards Cayman Porch Door Extension to convert the enclosed space into a large 2-person sleeping area. There are zip back doors on both sides of inner tent, which means it can be left in situ during the day to allow access to both internal and external doors. Darkened polyester fabric is used to block out more light for a better nights sleep.

CABIN INNER TENT

A man wearing a white t-shirt, blue shorts, a baseball cap, and sunglasses is sitting in a black folding chair. He is positioned in front of a dark-colored car with a large, light-colored awning extended over him. To his right is a small, square folding table with a white mug and a bowl on it. Another black folding chair is empty next to the table. The scene is set on a grassy area with trees in the background.
